Making Simple Needle Felts

Steffi Stern

Steffi Stern brings her inimitable energy and enthusiasm to her second book, intended as a back-to-basics guide to making needle-felted objects. All the projects in the book are achievable for a beginner. Some aimed at little fingers (no needles involved) and beginners, and some are aimed at those with more experience. The book is organised by season; it brims with all kinds of treasures, such as pumpkins, gnomes, strawberries, baubles, birds, bees, snails, flowers, the Nativity, mice, and mermaids.

Steffi's advice is to have a go!

Making Needle Felted Animals

Steffi Stern and Sophie Buckley

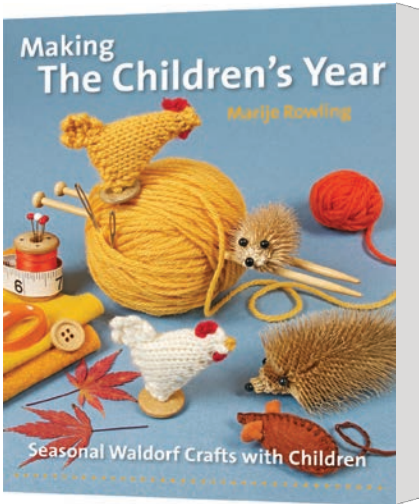

The projects arise from a genuine love of the natural world and animals, whether they be family pets or wild creatures whose widespread ill-treatment has brought them into the limelight. Requiring no experience other than an interest in working and playing with wool, projects progressively build on skills throughout and will transform you into an avid needle-felter in no time at all.

This book is gorgeous – the animals are so lifelike and appealing – it makes you want to get started straight away. **Melissa Corkhill, The Green Parent Magazine**

Steiner Waldorf Education

Writing to Reading the Steiner Waldorf Way

Abi Allanson, Nicky Teesma

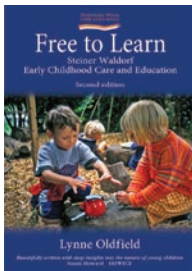

Showcasing the holistic, creative aspects of the Steiner Waldorf literacy approach, this book is both theoretical and practical. It gives a complete pathway to teaching children how to write and read in Classes 1 and 2 (equivalent UK Years 2 and 3.) This book provides teachers with appealing, easy-to-use plans and practical activities for immediate use.

Writing to Reading...is essential reading, not only for Waldorf teachers, but also for all those who desire a deeper understanding of the miracle of reading.'

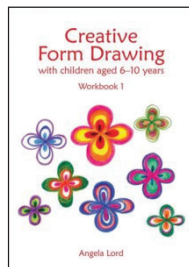

David Elkind, Ph.D. Professor Emeritus of Child Development, Tufts University.

Education

Creative Place-Based Environmental Education Jorunn Barane, Aksel Hugo and Morten Clemetsen

How can schools become creative hubs for enriching the community, for caring for nature, the landscape and place? This book presents the why, what and how of creative place-based education as action researched successfully by educators for over 20 years in Aurland, Sognafjord Norway, and with the Life Science University nationally. This hands on approach embraces the whole locality as an inspiring educational resource. Design tools for developing place based educational curricula are made globally relevant, with case studies.

Movement, Your Child's First Language

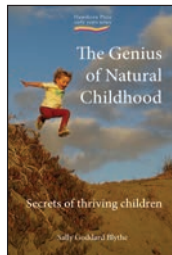

Sally Goddard Blythe

This book with 2 CDs is a collection of songs, action nursery rhymes and stories that assist child development through movement. Sally Goddard Blythe explains why movement matters for brain development, attention, co-ordination and balance. She also describes the neonatal reflexes and how healthy early years movement transforms such reflexes. Michael Lazarev's songs help develop co-ordination and language skills.

An inspiration.... Here, you will find the simple virtues of 'music and movement' and child-raising wisdom allied with the latest neuroscientific insights to show just why the 'old-fashioned', pre-technological ways often had it right all along.' Dr Richard House

Parenting

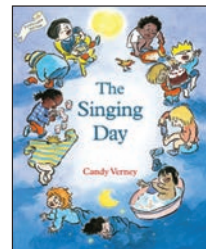

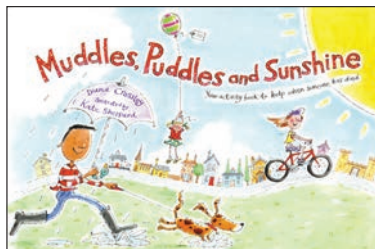

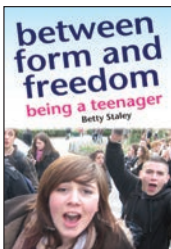

The Parenting Toolkit

Caroline Penney

This book is a unique and valuable resource for everyone who wishes to give their children the best start in life. The author has drawn on her years of experience facilitating parenting groups and working as a family therapist to present these techniques clearly, illustrated by a wealth of real-life examples. She gives you simple skills for developing healthier relationships, including: acknowledging feelings, clear communication, descriptive praise, assertiveness, child-led play, describing behaviour instead of labelling the child, problem solving, and discipline strategies. She also has advice on how to manage your own stress and ensure you are getting the self-care that you need.

Findus and Pettson

NEW!

Findus and the Christmas Tomte Sven Nordqvist

Christmas is approaching, and Findus, the talking cat, is adamant that the Yule Tomte must visit him. Because Pettson does not want Findus to be disappointed, he comes up with a plan to build a Yule Tomte that can move and speak and give Findus gifts. But it is going to be very difficult to keep this secret from the curious cat, and even harder to design a convincing mechanical Yule Tomte! What Pettson needs is a little bit of Christmas magic...

Social Ecology and Management

Free Equal and Mutual

Editors Martin Large and Steve Briault

The two editors have collated cutting edge articles by people using Steiner's societal three-folding ideas. With resurgent nationalism, global warming, rising inequality, blowback from wars, our market dominated society is in meltdown. Rudolf Steiner's free, equal and mutual vision offers a timely alternative for rebalancing society. This pushes back 'the market' from politics and culture. How? Healthy boundaries are reasserted between the private business sector, the public state sector and the plural cultural sector. This shapes a dynamic threefold society based on mutuality, equality and freedom-for people and planet.
