

GOLDEN STAR ANGEL

Painting the doll

1. Paint hair and a face on a 5 cm (2 in) angel-peg.
2. Paint the body of the doll white.

Adding Embroidery

3. Cut out pieces according to the patterns: two halo pieces, two wing pieces and one cloak. Embroider stars around the halo and along the edges of the cloak. Add daisy stitches around the curved edge of the wings if you wish. Once you are finished with the embroidery, glue the second halo piece to the back of the embroidered halo to hide the back of the stitches. Glue the second wing-piece to the back of the embroidered wings to hide the back of the stitches in the same way.

Cloak

Halo (cut 2)

Wings (cut 2)

Dressing the doll and adding wings

4. Apply glue inside the embroidered cloak, wrap around the doll and secure the front with a few stitches of embroidery floss.

5. Glue the halo to the back of the doll's head and the wings to the back of the cloak.
